RE: Withdrawal of Part A Hazardous Waste
Permit Application

FACILITY NAME: Interlake Landfill
U.S. EPA ID NO: ILD000810432

0316000000

Dear Mr. Volini:

This is to acknowledge that the United States Environmental Protection Agency (U.S. EPA) has completed its review of your Part A Hazardous Waste Permit Application, and your November 23, 1983 , letter requesting the withdrawal of your permit application. According to the information you have submitted, the above-referenced facility was not an existing hazardous waste management facility on November 19, 1980, and does not presently manage hazardous waste.

It is the opinion of this office, based on the information submitted, that this facility does not have interim status, neither is a permit under Section 3005 of the Resource Conservation and Recovery Act (RCRA) required at this time.

If at any time in the future, this facility plans to treat, store, or dispose of hazardous waste, it would be required to obtain an RCRA permit, as a new facility, according to 40 CFR 270.10 (f).

Please contact the Authorization and Information Section at (312) 886-6148, if you have any questions, or require other assistance on this matter.

Sincerely yours,

Karl J. Klepitsch, Jr.
Chief, Solid Waste Branch
